Good Enough to Eat

But they are best taken whole and will put your system in such a healthy condition that you can eat anything. No more trouble with your liver, no disordered stomach after a few doses of Scudder's pills. If you have prescriptions to be filled, bring them to us—we guarantee to fill correctly.

BAHNSEN'S DRUG STORE.

No. 331 Twentieth Street.

Nasal CATARRH

In all its stages there should be cleanliness.

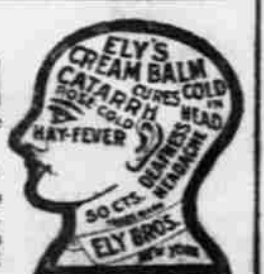

Ely's Cream Balm

cleanses, soothes and heals the inflamed membrane.

It runs catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug Store or by mail; Trial Size, 10 cents by mail.

ELY BROTHERS, 66 Warren Street, New York.

Foley's Kidney Cure

is a pure medicine, and contains in concentrated form, remedies recognized by the most skillful of the medical profession as the most effective agents for the cure of kidney and bladder diseases. For sale by all druggists.

Half the World in Darkness

As to the cause of their ill-health. If they would start to treat their kidneys with Foley's Kidney Cure, the weariness of body and mind, backache, headache and rheumatic pains would disappear. For sale by all druggists.

COAL TO BE HIGHER.

Expected the Miners' Strike Will Affect the Local Market Before Long.

ANTHRACITE RAISES \$1 IN CHICAGO

Said to Be a Good Supply on Hand, But Not Enough to Meet Demand.

Chicago papers announce an advance in the price of anthracite coal of about a dollar a ton. While this has not so far affected local dealers, it is only a question of a short time when they will be forced to meet the advance. The immediate cause of the rise is probably the strike now on in the anthracite regions of Pennsylvania, and there are those who say that the coal operators are encouraging the strike in order to get rid of the surplus output now on hand. However, there has been a strong tendency ever since last season to put up the price, and one attempt in that direction miscarried. There is an increasing seaboard demand for hard coal and the smokeless grades of soft coal. The European countries, as well as the navies of the world, are using rapidly increasing quantities, and for the same reason: that of economy of space in transportation. In all probability the price of West Virginia smokeless will follow closely after that of anthracite coal, and the length of the strike is the only element that will limit the ultimate price of both.

Of course the east will suffer more than the west, for nine-tenths of the hard coal consumed in this country is used east of Chicago. It has been estimated that there is sufficient of the product now on hand in Chicago and Milwaukee to supply the west till the first of January, but this is probably not true. A large number of country dealers have neglected to lay in their winter's stock, hoping for more favorable prices, and when they begin to order, the supply will soon become exhausted. Wholesale dealers are not fixing prices in advance, but sell only subject to those prevailing at the time of delivery. Hard coal is now selling in the local market for \$7.50 per ton, or 25 cents cheaper than in adjoining cities.

It is not expected that bituminous coal will be affected by the rise. The demand has not increased over that of last year and the cost of mining is the same, having been settled by the union scale. If there is any advance it will come through a combination of the operators for the purpose of increasing profits.

A NOVEL CENSUS.

How the Beasts, Fish and Birds Will Be Counted.

The most novel of the censuses is that of the beasts, the fish and the birds, which is conducted by the Colorado Historical and Natural society. It is taken periodically, and in the one soon to be conducted the co-operation of the fish and game wardens and of the school children has been enlisted. As the deer and buffalo and such game as the mountain sheep and mountain lion are fast disappearing, the Denver Republican explains, it is thought that the task of compiling statistics on their present numerical strength will be relatively easy.

The most difficult will be experienced in being exact as to the number of prairie dogs, squirrels, snakes and frogs. Counting the fish will be easy, the number turned out by the fish hatcheries being the basis upon which the present population of the rivers will be mathematically computed. In counting the birds a bird having in any manner participated in the building of a nest now in existence in the state will be regarded as a citizen, as will all birds hatched in a nest now in existence in the state.

The school children will be called upon to count the nests in every township, and the list of nests will form the basis of the bird census. Sixty per cent of the number of eggs in nests reported at the time of the taking of the bird census will be included in the total on the ground that they will be hatched before the figures reach the public.

A New Safety Match.

A match has at last been discovered which can be manufactured absolutely without the aid of phosphorus. This safety match contains neither red nor yellow phosphorus nor a compound of phosphorus, but possesses the great advantage of being able to be manufactured with the plant and machinery hitherto in use. Invention still strides onward through every line, and yet there are some things which seem impossible to improve. For instance, Bowditch's Stomach Bitters, that famous medicine, has stood unequalled for 50 years as a corrective of stomach disorders. Immita I'm have sprung up about it, but live a beacon light. It has stood immovable, pointing the way to health from all such ailments as constipation, indigestion, dyspepsia, biliousness, sluggish liver or weak kidneys.

Foley's Kidney Cure is a pure medicine, and contains in concentrated form, remedies recognized by the most skillful of the medical profession as the most effective agents for the cure of kidney and bladder diseases. For sale by all druggists.

Half the World in Darkness As to the cause of their ill-health. If they would start to treat their kidneys with Foley's Kidney Cure, the weariness of body and mind, backache, headache and rheumatic pains would disappear. For sale by all druggists.

DENTON FOUKE HAS BEEN SEEN AGAIN.

Denton Fouke, the alleged murderer of Mr. and Mrs. Bobbs, at Freeport, seems to have the faculty of being in several places at once. A week ago he was reported to have been seen in Edgington. Later a suspect was arrested at Andalusia, but was released after the authorities were satisfied he was not Fouke. The Rockford Star claims Fouke is in the vicinity of Leaf River, and gives the particulars as follows:

About 2 o'clock Wednesday morning members of the family of Samuel Kendall, who lives two miles southwest of Leaf River, were awakened by the noise of some one using the pump. They looked out and saw a man getting a drink. After satisfying his thirst he hastened to a cornfield close by and disappeared from view.

In the afternoon a young son of Mr. Kendall, while driving by the cornfield, came upon Fouke unexpectedly. He knew the man well, as Fouke formerly resided at Mt. Morris, only a short distance away. When Fouke saw young Kendall, he flung himself flat on the ground, face down, and thrust his arms around his head so that the boy would not recognize him.

Young Kendall was not fooled, but he was badly frightened, as he had heard that Fouke was accused of the awful crime of murder. He whipped up the horses, and arriving in town, notified the people.

A party was at once formed to visit the cornfield. About twenty men, the majority armed with shotguns and revolvers, hurried to Fouke's hiding place. Surrounding the field, they marched into the field ready to shoot. Nearly every foot of the field was covered, but Fouke had vanished. Evidently he had lost no time in moving out after young Kendall drove on.

The party found a fire and remnants of a chicken which Fouke had cooked. The indications were that he had been in the cornfield for several days. Further search was made, but the man had made good his escape.

And now comes the absolute announcement from the Rockford Gazette that Fouke has been arrested at Freeport by the sheriff of Stephenson county and is at last safely landed in jail there.

Police Points.

Two Moline men who came to Rock Island to see the sights last night, started a row with Conductor Charles Jones, on the Fourth avenue line, on their way home and were arrested. This morning Magistrate Stafford fined them each \$10 and costs for disorderly conduct.

Paris Exposition Medals.

In addition to the medals already designed in commemoration of the Paris exposition three other medals will be struck in connection with congresses which will assemble during the exposition at the Palace of the Courts in Rome, says the Gaulois. The first medal, designed by M. Dupuis, is intended for members of the numismatic congress and represents numismatology as a nymph, seated and scrutinizing a coin. The second medal, commemorative of the congress of medicine, has been engraved by M. Vernon, and the third is by M. Roly, this being intended for members of the congress of values. On the obverse the third medal has a fine figure of the republic and on the reverse Fortune pouring into a chalice the contents of a cornucopia.

Where Weight Will Tell.

The Boxer Insurrection, says the Kansas City Journal, will be effectually flattened out when the standing armies of the world sit down on it.

The Campaign Button.

We have heard the thrilling story of the man behind the gun. Of the man behind the gun. We've applauded him and marveled at the wonders he has done. But the fiercest of all glory is forgotten—put away—Is the man behind the button. Is in existence today.

Let us candidly acknowledge the enormous debt we owe to that patient, plodding ruler. The good man behind the box: Let us give due praise and credit to the man behind the box. But the man behind the button. Consists to save the nation now.

Oh, the hero's help is needed. When the clouds of war descend, And upon the sturdy soldier. Weigh matters still depend, But how long, O friend and brother, Could our institutions stand If the man behind the button Were not rampant in the land? —S. E. Kiser in Chicago Times-Herald.

Literary Difficulties.

"She has been talking about writing a novel for years," said one woman. "Yes," answered the other, "but I don't think she'll ever get it completed. She has followed the plan of those authors who study their personal acquaintances for types of character." "Isn't the method a good one?" "Not in her case. When her husband refuses her anything, she wants to put him in as the villain, and when he does as she wishes she wants to make him the hero. It keeps her continually rewriting the first chapter."—Washington Star.

Longevity of Fish.

There are some goldfish in Washington which have belonged to the same family for the last 50 years, and they seem no bigger and no less vigorous today than they did when they first came into the owner's possession. A few of the fish in the Imperial aquarium at St. Petersburg are known to be 150 years old, and the age of the sacred fish in some of the ponds attached to the Buddhist temples in China is to be counted by centuries, if we are to believe the priests.

NEW HOME IS BURNED.

Robert Smith's Residence on Twelfth Street Reduced to Ashes Last Night.

FURNITURE ALSO DESTROYED

With a Loss of \$2,000—Narrow Escape for the Davis House.

The new residence of Robert Smith, located on Twelfth and Aiken streets, in South Rock Island, took fire about 8 o'clock last evening and in a short time was reduced to ashes. The only article of furniture saved was a rocking chair, which happened to be near the front door and was drawn out by a neighbor who had smashed the door in with an ax.

At the time the fire started the family were out riding. They had just left home and had reached the end of the Twelfth street pavement, coming toward town, when their attention was called to the fire.

The entire neighborhood was soon on the spot and a bucket brigade was organized to save the house of Ferdinand Davis, which stands near the scene of the fire. Water was brought from John Paulsen's brick yard in the tank wagon used to haul water to the yard. It had, fortunately, been filled late in the afternoon and was the means of saving the Davis house, which escaped with a scorching. By the time the danger was past the neighbors had removed all the furniture and carpets from it.

Loss is \$2,000.

The loss, which includes about everything in the shape of personal property belonging to Robert Smith, and some things owned by a sister of Mrs. Smith, who was visiting at the place, will probably reach \$2,000. The house and furniture were insured for \$400. The origin of the fire is unknown.

A fire in the Cable vacant lot on Twenty-ninth street last night kept No. 3 hose company busy till 1 o'clock. It caught in the rattlings, with which the lot is filled beneath the surface, and could not be completely extinguished.

TRAINED NURSE.

Remarks About Nourishing Food.

A physician's wife, Mrs. Dr. Landon, gave me a package of Grape-Nuts about a year ago, with the remark that she was sure I would find the food very beneficial, both for my own use and for my patients. I was particularly attracted to the food, as at that time the weather was very hot and I appreciated the fact that the Grape-Nuts required no cooking. The food was deliciously crisp, and most inviting to the appetite. After making use of it twice a day for three or four weeks, I discovered that it was a most wonderful invigorator. I used to suffer from exhaustion, headaches and depression of spirits. My work had been very trying and my indigestion had set in.

Now I am always well and ready for any amount of work, have an abundance of active energy and cheerfulness and mental poise. I have proved to my entire satisfaction that this change has been brought about by Grape-Nuts food.

The fact that it is predigested is a very desirable feature. I have had many remarkable results in feeding Grape-Nuts to my patients, and I cannot speak too highly of the food. My friends constantly comment on the change in my appearance. I have gained nine pounds since beginning the use of this food." Eleanor Miller, trained medical and surgical nurse, 515 Jefferson street, Bay City, Mich.

The Bravery of Woman.

Was grandly shown by Mrs. John Dowling, of Butler, Pa., in a three years' struggle with a malignant stomach trouble that caused distressing attacks of nausea and indigestion. All remedies failed to relieve her until she tried Electric Bitters. After taking it two months, she wrote: "I am now wholly cured and can eat anything. It is truly a grand tonic for the whole system, as I gained in weight and feel much stronger since using it." It aids digestion, cures dyspepsia, improves appetite, gives new life. Only 50 cents. Guaranteed at Hartz & Ullemeyer's drug store.

Shake Into Your Shoes

Allen's Foot-Ease, powder for the feet. It cures painful, swollen, smarting, nervous feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age.
